

## Cambridge Masters in Conservation Leadership

### Applications and scholarship support for October 2018

The MPhil degree in Conservation Leadership at the University of Cambridge is a full-time, eleven month course aimed at graduates of leadership potential with at least three to five years of relevant experience in biodiversity conservation. Based in the University's Department of Geography, a unique feature of this course is its delivery by members of the Cambridge Conservation Initiative (CCI), a partnership between six university departments and nine conservation organisations or networks based in and around Cambridge. In 2016 a Conservation Campus for the CCI organisations was opened in the refurbished David Attenborough Building in central Cambridge. The Masters in Conservation Leadership has a dedicated teaching room within the building, offering our students constant access to world-leading conservation practitioners and researchers.

The Masters in Conservation Leadership focuses on issues of management and leadership. It aims to develop conservationists with enhanced awareness of the complex drivers of biodiversity loss, and the ability to act and lead effectively. Consequently, the course aims to deliver a world-class and interdisciplinary education in Conservation Leadership that is not available elsewhere.

- We now welcome applications for entry to the course in October 2018. For further details on how to apply, please visit the course website: <http://www.geog.cam.ac.uk/graduate/mphil/conservation/>
- The closing date for applications is **6 December 2017**. There is no longer any fee for making an application for students from the least developed countries. For further information on eligibility for fee waiver please see the link below. <http://www.graduate.study.cam.ac.uk/how-do-i-apply/application-fee>

We are pleased to be able to continue offering Miriam Rothschild Scholarships in Conservation Leadership to support students attending the MPhil in Conservation Leadership. Successful applicants for scholarships will have outstanding conservation leadership potential, but be unable to fund their studies from other sources. Particular priority for scholarships will be given to those from countries rich in biodiversity but poor in financial resources. Various other awards are available through sources such as the Cambridge Trusts.

If you have any queries about making an application, please contact the Programme Administrator, Lisa Harris: [admin.conservationleadership@geog.cam.ac.uk](mailto:admin.conservationleadership@geog.cam.ac.uk)
