

2nd Women in Environmental Sciences Workshop

Wednesday 12th June 2019
10.00-14.00 (Registration at 9:45am)

Roscoe Building - Theatre B,
University of Manchester

The workshop will:

- establish women's voices in environmental science, as part of an interdisciplinary research programme, within the framework of sustainable development goals;
- explore how partnerships between research & development organisations (local & international) can be focused on women's environmental concerns and initiated to deliver innovation & impact;
- encourage & inspire a new generation of women to become environmental science advocates, activists & practitioners.

Highlights: Presentations, Q & A sessions, break-out sessions, networking & exhibition stands.

Featuring

- **Dr Cecilia Medupin**, Lecturer, School of Earth & Environmental Sciences, Univ. of Manchester, UK.
