

# Logan's Meadow Local Nature Reserve

## Public Consultation

Cambridge City Council and the newly formed Friends of Logan's Meadow are embarking on a project to more than double the size of Logan's Meadow Local Nature Reserve. This will contribute to Natural Cambridgeshire's 'Doubling Nature' vision.

The site has potential to help address both the biodiversity and climate change emergencies declared by the City Council and contribute to our ambition of increasing the city's tree canopy cover.

We want to know how you use the space and how you would like to see it shaped and maintained in the future. For full information about how the area is currently used and our proposals (including plans) please go to the online consultation form using the link or QR code below:

<https://tinyurl.com/y28wsetn>

If you have any trouble using our online form, you can email comments to [parks@cambridge.gov.uk](mailto:parks@cambridge.gov.uk).

**Consultation closes 20th November 2020**
